Woman's Trials.

The bitter trail in a woman's life is to be childless. Who can tell how hard the struggle may have been ere she learnt to resign herself to her lonely lot? The absence of this link to bind marital life together, the absence of this one pledge to mutual affection is a common disappointment. Many unfortunate couples become estranged thereby. Even if they do not drift apart, one may read the whole extent of their disappointment in the eyes of such a childless couple when they rest on the children of others. To them the largest family does not seem too numerous.

In many cases of barrenness or childlessness the obstacle to child-bearing is easily removed by the cure of weakness on the part of the woman. Dr. Pierce's Favorite Prescription has been the means of restoring health and fruitfulness to many a barren woman, to the great joy of the household. In other, but rare cases, the obstruction to the bearing of children has been found to be of a surgical character, but easily removable by painless operative treatment at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., over which Dr. Pierce of the "Favorite Prescription" fame presides. In all cases where children are desired and are absent, an effort should be made to find out the real cause, since it is generally so easily removed by proper treatment.

In all the various weaknesses, displacements, prolapsus, inflammation and debilitating, catarrhal drains and in all cases of nervousness and debility, Dr. Pierce's Favorite Prescription is the most efficient remedy that can possibly be used. It has to its credit hundreds of thousands of cures—more in fact than any other remedy put up for sale through druggists, especially for woman's use. The ingredients of which the "Favorite Prescription" is composed have received the most positive endorsement from the leading medical writers on *Materia Medica* of all the several schools of practice. All the ingredients are printed *in plain English* on the wrapper enclosing the bottle, so that any woman making use of this famous medicine may know exactly what she is taking. Dr. Pierce takes his patients into his full confidence, which he can afford to do as the formula after which the "Favorite Prescription" is made will bear the most careful examination.

Dr. Pierce's Pleasant Pellets are the best and safest laxative for women.

THE PEOPLE ALL

In Chorus Cried, Give Us Newbro's Herpicide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found, who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means, a destroyer or killer of "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Victims of the Bomb.

The casualties of the bomb explosion in Madrid Thursday number 17 dead, 76 injured.

General Weyler, formerly captain general of Cuba, who was struck by a piece of the flying missile is said to be seriously wounded.

It is believed the attempt upon the King's life was the outcome of a plot laid in London following a convention of anarchists in Paris.

Robert Hamilton, an Englishman, is under arrest in Madrid. He is said to closely resemble the man Manuel Morales, who hired the balcony from which the deadly missile was thrown.

English detectives, including the chief, who accompanied the Prince of Wales to Madrid, are at work on the case. Some 30 arrests have been made. Detectives in London are co-operating with those in Madrid.

The young Queen has recovered from the shock, though she is still nervous.

Spanish officials have been warned that another attempt will be made to kill the King.

It is customary for Spanish royal brides to present their wedding robes to the Virgin Mary. Queen Victoria's costly gown, which will not be an exception, will be a unique offering, inasmuch as it is stained with the blood of victims who fell around the royal carriage. When she was hurried out of the damaged coach and conducted by her husband to the reserve carriage she had to walk over the blood-dabbed street among the bodies of writhing human and equine sufferers. Haste prevented her from picking her steps, and thus her skirts, as well as her white shoes, were bedaubed with blood. The Church of Almenden, opposite the scene of the outrage, will probably receive the dress. King Alfonso is greatly troubled that he was the unwilling cause of bringing his wife near a hideous death. He has said repeatedly in sorrowful earnestness to his guests: "I am so miserable at having brought her to face this." Queen Victoria is irreconcilable, declaring that she is responsible for so many persons being killed.

Josephine Terranova Acquitted.

Josephine Terranova was acquitted in New York yesterday afternoon of the murder of her aunt, Concetta Reggio. The jury was actually out 15 minutes, staying out merely as a matter of form, as they were unanimous in their belief in the innocence of the girl when they left the jury box.

It might be said that the jury's verdict upholds the "unwritten law." In the first place, Justice Scott in his charge said that the jury might convict the girl of manslaughter, and it was within the discretion of the court to send her to a reformatory. He also said that the jury could acquit, specifying that the girl was insane when she killed her aunt. Although Justice Scott did not mention it, it would then be within the power of the court to commit her to an asylum until such time as her sanity had been determined. But the jury disregarded his suggestion, if it could be called one, and simply said, "not guilty."

Much as the verdict meant to the girl, it did not mean her freedom right away. At the time she killed her aunt she stabbed to death her uncle, Gaetano Reggio, and she is under indictment for murder in the first degree on that charge. So she was taken back to the Tombs to await the decision of District Attorney Jerome, who is at Lakeville, on the question of trying her for killing her uncle.

It was the general opinion of the District Attorney's office last night, no word having been received from Mr. Jerome, that she will not be tried again. There were many reasons for killing her uncle—reasons even stronger than she had for killing her aunt—and if a jury would not hold her responsible for killing her aunt, there is no likelihood of getting a jury that wouldn't sympathize with her for killing her uncle.

This 17-year old girl who sat through the trial and yesterday's proceedings without any sign of fear and little emotion says that when freed she is going to a convent. She says that she will not return to her husband, even if he should take her. Two Sisters of Charity waited for her outside of the courtroom yesterday, ready, it was said, to take her with them had she been released.

Child Burned at the Stake.

The 5-year-old son of Robert Maroney, of Cedar Grove, Kanawha county, W. Va., was tied to a stake and burned to death by playmates who were emulating the characters in a mock initiation of Red Men, recently presented by members of the local lodge in the public hall at that place. The children, the eldest of whom is about 10 years of age, were arrayed like Indians. The Maroney child, who was the "pale face," was seized and bound to a fence post. A quantity of shavings were placed about his feet, saturated with oil and lighted, the flames communicating with the child's clothing and in a moment the little body was wreathed in flames. The children, realizing what they had done, struggled to tear away the burning material, and rescued the child alive, but the boy soon died.

A Miraculous Cure.

The following statement, by H. M. Adams and wife, Henrietta, Pa., will interest parents and others. "A miraculous cure has taken place in our home. Our child had eczema 5 years and was pronounced incurable, when we read about Electric Bitters, and concluded to try it. Before the second bottle was all taken we noticed a change for the better, and after taking 7 bottles he was completely cured." It's the up-to-date blood medicine and body building tonic. Guaranteed. 50c and $1.00 at E. S. Leadbeater & Sons' drug store.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

SATURDAY EVENING, JUNE 2, 1906.

THERE are some good democrats among the preachers yet. At the recent Episcopal Diocesan Convention at Indianapolis it was unanimously resolved that "we declare that it is the business of Christians and churchmen to be honest before they are rich; that success gained by violating the law or by swindling one's fellows is a base thing; that the greed for wealth and power which leads men into these crimes must be checked; that the church cannot afford to allow men to think that her silence, much less her approval, can be purchased by gifts from them; that unless the church does take a strong stand against these sins of the rich and powerful she will inevitably lose her weight and influence and sink to the level of the world's life." This reads like a plank in the democratic platform. If those ministers will only get their parishioners to practice such doctrine, Indiana will never again send a republican to Congress or cast its electoral vote for a republican candidate for president.

ACCORDING to the letter of the law, and, to speak honestly, in accordance with the spirit thereof, the young Italian woman who has been on trial in New York for the past two weeks on a charge of murder should have been convicted. Though, as says the Philadelphia Record, there was some expert testimony to the effect that she was insane, she was pronounced sound of mind by a commission of lunacy, and herself vehemently protested that she was perfectly sane. There are cases, however, in the judging of which the emotions triumph over cold reason; and such a case was that of the Terranova woman. Under some systems of law, though not under ours, such provocation as she had is held to excuse retaliatory justice. An American jury being the judges of the law as well as of the facts in a capital case, the acquittal of the woman was well within the province of the twelve men who tried her, and few would care to accuse the jurors of a violation of their oaths. Still fewer will be dissatisfied with the verdict.

ACCORDING to advices from the Orient Japan will during the next few years attack China in order to perpetuate her claim to Port Arthur and other places occupied by Japan during the recent war with Russia. The Mikado also desires to place Japan at the head of the Mongolian race and make China and other countries form the tail to his kite. The majority of the Anglo-Saxon race sympathized with Japan during her struggle against Russian encroachments but should the Mikado urge an unnecessary war upon the peaceable celestials in order to gratify his ambition and greed, he is likely to forfeit the moral support he has heretofore enjoyed.

THE democrats have endorsed the course of Representative Williams the democratic leader, in filibustering against private bills as a means of forcing action on the statehood bill. On several occasions Mr. Williams made his power felt in such a way as virtually to stop the wheels of legislation. By persisting in this policy, the democrats hope to force the republicans to consent to the admission of Oklahoma at the present session.

THE Merchant Marine League, an association very close to the steamship trust, was assured by President Roosevelt that he was heartily in favor of the ship subsidy bill now pending in Congress. It is hard to find a republican politician that does not favor subsidies in some form. They are all imbued with the Hamiltonian doctrine that the people were born to be taxed for the benefit of the favored few.

IF THE other departments of the government had as much vim and technical knowledge of their business as the Interstate Commerce Commission has shown in its investigation of the rail roads, the trusts and combines would have a hard road to travel. No wonder there is a settled purpose of Senator Lodge and other railroad Senators to reorganize the commission that is doing its duty so ably and manfully.

The republican party claims to be "the party that does things," but when the record of the present Congress is made up, its sins of omission will be found as numerous as those of commission. The republicans of the Fifty-ninth Congress will go down into history as the procrastinators, and as the most scared lot of politicians that ever sat on the lid.

THE surprising amiability of Senators Aldrich and Elkins towards the radical amendments to the railroad rate bill strengthens the suspicion that it is intended to knock out in the conference committee the amendments bringing pipe lines, express companies and sleeping car companies under the law.

From Washington.

(Correspondence of the Alexandria Gazette.)

Washington, June 2.

Attorney General Moody has received word from California that the Circuit Court has sustained the government in its suit against the Otis Elevator Company for violation of the federal anti-trust laws. A perpetual injunction has been granted against the elevator company prohibiting it from entering into any agreements with other companies for the restraint of trade or the enhancing of prices. The company, it is said, consented to the decree of the court without putting up a fight. The Otis Elevator Company, according to the Attorney General, entered into a combination with thirty other manufacturing concerns for the purpose of controlling the elevator business.

Many of the important questions that have been pending in Congress are expected to reach their culmination next week and unless there are undue delays the programme of the leaders to bring the session to a close about the 15th or 20th of this month will probably be carried out. The reports of the conference committees on the railroad rate bill and on the statehood measure are likely to be made early in the week and they will provoke some discussion. There will be further debate on the resolution requiring that materials for the Panama canal be bought in the United States unless the prices are extortionate and unreasonable in comparison with foreign bids. The bill declaring in favor of the construction of a sea-level canal instead of one with locks at Panama will be pressed to a vote if possible during the week. The leaders hope to pass the bill about Thursday. Unless Mr. Burton, the convicted Kansas Senator, has in the meantime resigned the Senate committee on privileges and elections will on Tuesday report a resolution expelling him from the Senate. The reports in the Reed Smoot case will be presented next Friday by Chairman Burrows for the majority. The Senate will have to determine for itself the question at to whether Smoot is to be retired by exclusion or expulsion, that is by a majority or by a two-thirds vote. An effort will be made to decide the matter at this session although the case will involve a great deal of discussion. The sudry civil appropriation bill is the great supply measure that will be before the House next week. It will be followed by the Payne bill to amend the customs administrative act. Political speeches will be the center of interest. Reports from conference committee on important measures, the railroad and the statehood bills, are also expected and may give rise to warm debate.

The body of Representative Robert Adams, of Philadelphia, whose tragic deed in taking his own life so shocked the capital yesterday, will be taken to Philadelphia this afternoon for burial. The funeral party will leave Washington at 4 p. m. Francis P. Adams, a brother of the suicide, arrived in Washington last night. It is now planned to hold the services in Philadelphia Monday afternoon. A large number of Representatives will attend the funeral personally, but not as a committee appointed from the House. Mr. Adams requested that this committee be not appointed, as is the custom. The Sergeant-at-arms of the House will also attend the services.

The deplorable affair at Cananea, Mex., presents an international problem of considerable gravity, and the administration here is disposed to move with great caution. Under the treaty with Mexico, it is allowed for the United States troops to invade Mexico in pursuit of renegade Indians without waiting for specific action by Mexican government. Under other circumstances, the United States is bound by the ordinary rules of international law and comity. Even should Governor Ysabel, of Sonora State, in which Cananea is located, request the aid of United States troops in putting down the Mexican miners' uprising, there is very serious doubt whether the United States would be justified in sending troops across the border. Secretary Taft and Chief of Staff Bell immediately went into consultation, and are prepared to send troops into Cananea just as soon as the State Department gives the word. Following the conference with Secretary Taft, Gen. Bell went to the Secretary of State, where a long consultation was held as to the legal aspects of the case, officers of the Judge Advocate General's department being present. Secretary Root is of the opinion that at present the United States may not send troops into Mexico, no matter how serious the situation may be. As a result of the conference an order was sent by the War Department to the commanding officer at Fort Huachuca instructing him to recall any U. S. troops that may have proceeded into Mexico. In the meantime, the Mexican government will be expected to exhaust every possible resource to stop the rioting and protect such Americans as may have escaped. Additional dispatches from U. S. Consul Galbraith and from other sources state that burning, pillaging, and dynamiting are still going on, and that the disturbance is beyond the control of the local authorities.

Commissioner of Labor Neill and Jas. B. Reynolds, of New York, today handed to President Roosevelt the final draft of their report of conditions in the Chicago packing houses. It contains 6,000 words. According to present plans it will be sent to Congress early next week.

Senator Long and Representative Curtis, of Kansas, both expect word from Kansas today to the effect that Senator Burton has presented his resignation from the United Statee Senate, to Governor Hoch. In that event a successor to fill the unexpired term, which runs to March 3, 1907, will be appointed by the Governor.

The report of the conference committee on the statehood bill, will be presented to the Senate this afternoon. The provision regarding New Mexico and Arizona is in the language of the first Foraker amendment, which Senator Foraker now opposes. He will conduct the fight against the adoption of the conference report and will be aided by Senator Bailoy with most of the democrats at his back.

The conferees on the railroad rate bill, expect to reach an agreement today. Mr. Hepburn ranking member of the House conferees, says that he expects to be able to submit a report to the House before adjournment today.

Members of Congress who visited the White House today predicted that final adjournment would not be reached before the 4th of July. Among those most emphatic on this subject were Representatives Watson and Grosvenor, the former the republican "whip" of the House, and the latter a member of the rules committee.

Mr. Wadsworth of New York, chairman of the House committee on agriculture, before leaving for his home in Geneseo, yesterday, submitted to the members of his committee, his proposed substitute for the Beveridge beef inspection amendment to the agricultural bill. The copies are carefully guarded, but it is known that it places the cost of beef inspection on the government, and provides a court review to assure the packers of their rights to appeal from wrongful decisions. The Wadsworth amendment will be considered by the committee on Wednesday.

Judge Crumpacker, of Indiana, today met the insinuation that his bill to provide for the inspection of meat offered for interstate and foreign commerce is "the packers' bill," by the statement that, if the fees to be charged to the packers by the Beveridge bill, were eliminated, the Beveridge measure would meet with the unqualified approval of the packers.

Today's Telegraphic News

Want International Action.

London, June 2.—The attempt made upon the lives of King Alfonso and Queen Victoria in Madrid on Thursday has brought the question of what action should be taken by all the nations jointly to quell anarchists, and the question now is the subject of much discussion among British police officials.

The British police favor some scheme of international action against the "Reds," as the surest way of putting an end to such outrages.

Though the officials are trying to disprove the theory that the plot against Alfonso was hatched in London, there is a difference of opinion among detectives on the subject. The latter believe that it is quite likely that the attempted assassination plans were made here, as it is well known that London is the hiding place of anarchists.

The correspondent of the Central News at Madrid wires that Robert Hamilton, the Englishman arrested yesterday on suspicion that he was an accomplice of the anarchist who threw a bomb at King Alfonso, was released this morning. Hamilton proved to be a mere tourist, who was in Madrid to witness the festivities in connection with the marriage of Alfonso and Queen Victoria. The real assassin is still free.

Madrid, June 2.—A telegram was received by King Alfonso today from Don Jaime, son of the Spanish Pretender, who is in Paris, addressed to Alfonso of Bourbon, saying: "As a courteous adversary, I wish to congratulate you upon your escape from this odious outrage."

The only change made in today's programme for the festivities in celebration of King Alfonso's wedding was the substitution of a reception in place of the state ball, which was to have been given.

Madrid, June 2.—Four more deaths occurred today of victims of the bomb outrage and thirty additional injured persons reported themselves to the authorities. Two more of the horses which were drawing the royal coach, at which the bomb was aimed, have also died.

The report that General Weyler was injured in the explosion is not true.

A reward of 25,000 pesetas (about $5,000) has been offered for the arrest or discovery of the author of Thursday's bomb outrage.

Left For Europe.

New York, June 2.—Representative and Mrs. Longworth, who before her marriage was Miss Alice Roosevelt, sailed for Europe this morning on the American liner St. Louis. The trip through the principal countries of the European continent will complete the honeymoon of the Longworths, which was deferred until now. Before their departure, Mr. Longsworth said they expected to be abroad until August, and visit England, France and Germany. In London Mr. and Mrs. Longworth will be guests of Ambassador and Mrs. Reid, who have arranged a series of entainments for them. One of these will be a dinner at which King Edward and Queen Alexandra will be present. In Paris they will be the guests of the Comtess de Chambrun, Mr. Longworth's sister. Later they will begin an automobile trip along the Rivera, and then return by way of Germany, where Mrs. Longworth hopes to meet the Emperor to thank him for the bracelet he sent her at the time she christened his yacht, the Meteor.

World's Richest Girl to Wed.

Essen, Prussia, June 2.—After repeated denials of her betrothal to men of wealth and prominence, including several princes, the engagement has been formally announced of Fraulein Bertha Krupp, daughter of the late Alfred Krupp, founder of the great Krupp Works, and the wealthiest young woman in the world. Her choice of a life partner is Gustav von Boblem und Halbeck, at present secretary of the Prussian Legation at the Vatican, a young man with scarcely any means of his own. Frauleiu Krupp inherited $75,000,000 from her father and has an income from the Krupp Works of $3,000,000 a year. Frauleiu Krupp is 20 years old and her fiance has just attained his majority. The couple met only a few months ago, and it is said they fell in love at first sight. The wedding date has not been set, but it is understood the marriage will occur early in July.

RIOT AND BLOODSHED.

Over Two Hundred American and Mexican Miners Killed.

Douglas, Ariz., June 2.—Riot and bloodshed swept the little smelting town of Cacanea, Mexico, from noon until darkness last night, and as a result 45 American miners are dead; twice as many wounded, many of whom will die; fifty Mexican miners and four Mexican policemen have been killed and upwards of 200 miners wounded.

The trouble began at noon, when the Mexican miners left the Capote and other mines, and assembled in the public square of the Mesa, or resident district. From here a delegation was sent to demand of Col. W. C. Greene, the owner of the mines and smelters, that the wages of the Mexicans be increased from three to five Mexican dollars daily.

Col. Greene, who had been confined to his bed for several days, arose and consulted with the committee for more than half an hour. He agreed to an increase in wages, but said it would be impossible for him to grant it without the consent of the Mexican authorities and gave his word that he would at once consult Gov. Ysabel, at Hermosillo, and if the latter were agreeable, the demands would be granted. This did not satisfy the Mexicans and a strike was at once instituted.

Then the announcement was made by the Mexicans that if they could not work at the increased wages Americans employed in the mines would not be permitted to work, and without warning the Mexicans armed themselves and descended upon the whites.

Taken thus by surprise, the Americans, at fearful disadvantage, were literally mowed down before the ruthless fire of the Mexicans. They made as brave a stand as possible, and as soon as arms could be secured the fire of the Mexicans was returned with telling effect. Troops have been sent to the scene of the disturbance.

The Green lumber yard was one of the first places to be fired by the Mexicans. The plant was totally destroyed, entailing a loss of fully $500,000. Then the general offices of the Cacanea Copper Company were burned as were many residences and stores occupied by Americans. The mines are on fire in a number of places.

The Mexicans secured arms and ammunition by dynamiting pawnshops where a great many firearms of all classes and cartridges were kept.

The situation is very grave. International trouble is feared, notwithstanding the fact that Governor Ysabel has consented to the entrance into Mexico of armed Americans and American soldiers.

Naco, Arizona, June 2.—A telegram just received states that the dead at Cacanea now number nearly 200. The information was brought from the town by refugees, who had arrived in Naco on a special train. They reported that the fighting was desperate when they left. The garrisons of the United States nearest the border are displaying great activity. Although it is not admitted that orders to move towards Cacanea have been received the appearances would indicates that the soldiers are prepared to act the moment that any orders come from Washington.

New Orleans, June 2.—A special from Bisbee, Arizona, says Col. W. C. Greene, President of the Cacanea Consolidated Copper Company, was killed by Mexicans at Cacanea last night.

Governor Ysabel, of Sonora, is on the scene with troops, but shooting continues from both sides. It is believed that about sixty Americans have already been killed and several times that number of Mexicans.

Naco, Arizona, June 2.—Governor Ysabel of the State of Sonora arrived here at 7:30 o'clock this morning and immediately gave orders permitting the armed Americans who were there from Bisbee, Douglas, and all parts of Arizona to accompany him to Cananea, where many lives were lost in mine riots yesterday. The Americans organized, and, in command of Captain Tom Rynning, former captain of the Rough Riders, and now commander of the Arizona Rangers, left with the Governor on a special train for Cananea at eight o'clock. There were 450 men in the party.

Girl's Singing Starts Feud in Flat.

Charleston, S. C., June 2.—Patillo Farrow, whose father, occupied a prominent position in Washington under the Cleveland administration, inhabits a flat here, and R. W. Muncaster, with his family, dwells in the flat beneath. Miss Muncaster is a pianist and a vocalist, her singing teacher being Anton Schott, known in his prime as the ideal Wagnerian tenor.

Mr. Farrow and his circle allege they were greatly annoyed by the vocal and instumental performances of Miss Muncaster, and a competition in the form of a merry din. The result is a suit for damages and a counter suit. Mr. Muncaster says that on March 11, about 12.30 A. M he and his wife and his daughters were rudely awakened by loud and volent noises overheard, caused by closing doors, continuing for more than an hour. On the afternoon of March 14, while one of Muncaster's daughters was playing the piano, he says the persons overhead made a deafening noise by beating a large tin boiler, continuing the same for over an hour. Mr. Furrow in his counter suit, alleges "violent discords of the most objectionable character." The health of Mrs. Farrow is alleged to be injured, and Mr. Farrow seeks double the amount sought by Mr. Muncaster. Both families are prominent socially.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. Fifty-ninth Congress.

Washington, June 2.

SENATE.

The question of the right of Reed Smoot, of Utah, to retain his seat in the Senate, was brought up in the Senate, today, immediately after the opening. Mr. Burrows, chairman of the committee on privileges and elections, in making verbal report of the committee's action, asked unanimous consent that the case be taken up for consideration Monday, June 11.

Mr. Teller said he had never before known of a request to fix a time for consideration of a subject before the formal report had been made.

He declared the Smoot case to be one of the kind that the Senate was not in the habit of rushing through.

"I do not purpose acting upon this question in response to public clamor, but upon the constitutional rights of the individual," he declared. "This is a question of conscience, as well as of law," he exclaimed.

Mr. Beveridge expressed gratification upon what he believed to be a desire of the Senate to act upon the case this session.

Mr. Spooner did not so interpret the Colorado Senator's remarks. "He has an old fashioned idea that he wants to be informed upon a subject before he votes upon it." he remarked grimly. Unanimous consent having been refused for fixing a day for taking the case up, the discussion was ended by Mr. Hale demanding the regular order.

During the discussion this afternoon of the resolution directing the purchase in America of supplies and machinery for the Panama Canal, Mr. Teller sharply criticised Chairman Shouts of the canal commission for remaining in Washington when he was paid $30,000 dollars a year to be on the canal zone.

Mr. Hale criticised the chairman of the canal commission for recommending in a recent public speech a lock canal at a time when the subject was one of Congressional consideration.

After filibustering for the better part of an hour, the House today gave further consideration to the naturalization bill.

Black Art

That between 15,000 and 20,000 persons in the United States became "students" of "Dr." White's "College of Science," formerly situated at 1507 Earl street, Baltimore, and had paid money for courses in "spiritualism, hypnotism and the black and white arts," was testified yesterday in the United States court in that city, where the "doctor" is on trial for using the mails to defraud.

Miss Rose Hannan, chief of "Dr." White's corps of assistants and stenographers, and vice president of his College of Science, gave the evidence referred to.

The prosecution finished with her before recess, and during the balance of the afternoon the defense tried to use her as a means of introducing various documents.

These efforts were overruled by the court, ex-Mayor Hayes, leading counsel for the defense, being told that to do this he must produce Miss Hannan as his own witness, which is the very thing the defense does not want to do.

Miss Hannan also testified that the income of the "doctor's" spirit foundry and magic breastplate factory was between $1,000 and $1,500 a week, and letters were produced showing that in several instances students had become disgusted with the course in spiritualism and "black and white arts" and had demanded their money back.

Of the large number enrolled, only twenty-two cases were recorded in which the money had been returned.

A letter was shown from Miss Maggie Howell, of Pelican, La., asking for the return of $7, as she needed the money more than the course.

This letter was indorsed "hold until compelled to return."

A warm espistle to "Dr." White from John H. Showalter, Mount Union, Pa., one of the "students" who had given up $5, was read to the jury. The writer said he returned the great Egytian breastplate, as it was no good. He continued: "I could study your book until I was bald headed without learning anything from it."

There was no record that Mr. Showalter's money was ever returned.

Asylum Investigation.

Eugene H. Clowes, ex-member of the special board of the Eastern State Hospital, which is now undergoing an investigation by the legislative committee, was on the rack all day yesterday. Mr. Clowes was called upon to explain the charge of graft which has been lodged against him.

Mr. Clowes acknowledged accepting five or six tons of coal from M. O. Brooks, superintendent of the Chesapeake and Ohio Coal and Coke Company, but said that he intended to purchase the coal. Mr. Brooks, Mr. Clowes said, met him on the street and told him that he could furnish him coal cheaper than he could purchase it elsewhere, that no price was named and that the coal was delivered. When he asked Mr. Brooks later for a bill he was told that the only charge was for the hauling of the material. Mr. Clowes contended that he paid 50 cents a ton for the coal.

The graft matter was sprung at the morning session, when chairman Saddler asked Mr. Clowes if he had ever accepted a gratuity from Mr. Brooks. Mr. Clowes said that other people who had contracts to furnish provisions for the asylum had offered to send him supplies, but that he had declined.

The cross-examination developed only the fact that the 50 cents a ton was for the hauling and not in payment for the coal.

Strike Collapsing.

Unless the Ohio operators and miners reach a settlement at Columbus, where they are now conferring, it is stated that the strike in eastern Ohio will be lost. Desertions have already occurred, and the great mass of the miners are on the verge of breaking away and going back into the mines. This condition is caused by the failure of the State organization of the United Mine Workers to pay strike benefits for the past three weeks.

At Dillonville a meeting of the foreign miners was held, and George Jones of the local union, being unable to hold the men in line, became distracted, and tried to commit suicide in front of a passing freight train, but was pulled off the track just in time. Then he plunged a knife three times into his breast, and his condition is serious. He will recover.

The Dillonville foreigners were told they could obtain credit at groceries for limited amounts, the goods to be charged to the United Mine Workers' organization, but the merchants refused to agree to this, claiming they have not sufficient capital. Starvation faces the men, and they are ready to return to work if the Columbus conference is fruitless.

Minister Suspended.

At a prolonged church trial at Hawesville, Ky., Rev. B F. Lawhern, a Methodist minister, has been suspended as have Mr. and Mrs. Joe Sapp. The trouble arose last March, when Sapp accused Rev. Mr. Lawhern of becoming too affectionate toward Mrs. Sapp, asserting that he saw them embrace and kiss a number of times. Sapp swore that he secretly bored some auger holes in the side of the building in which he is keeping a hardware store, and that when Lawhern came in one afternoon to talk to Sapp and his wife he left on a pretense that he had some business up street to attend to, leaving them alone in the store. Instead of going up street Sapp went to his peep-holes, when he declares he saw Lawhern and his wife in a fond embrace. Sapp called out "That's enough!" and he says Lawhern ran.

Mr. Bryan Guest of Honor.

William J. Bryan was a guest at a public banquet at Budapesth last night. Count Apponyi, in proposing a toast to him, compared the United States with a giant accumulator, producing the strongest conceivable current of ideas of liberty and equality. He said: "All of us feel more secure in the possession of freedom because their exists such a country as America." Mr. Bryan, in the course of his reply, said that a nation's rank is determined by its love of freedom. The first place belongs to Hungary, which had waged so many struggles for freedom. Francis Kossuth, referring to the United States as once a colony but now a great force, said he hoped Hungary's future would be as happy and as flourishing as is America now.

Killed in Automobile Accident.

Frank Allsopp, a wholesale jeweler of Newark, N. J., was instantly killed, and his wife sustained probably fatal injuries in an auto accident near New Brunswick, N. J., yesterday. Mr. and Mrs. Allsopp, with their nieces, Alice and Ella Allsopp, and Miss Florence Baker, were returning from a trip to Asbury Park in a large touring car. Mr. Allsopp was driving with his wife beside him, and the young ladies in the tonneau. While running at high speed, Mr. Allsopp swerved to pass a wagon, and the car ran into a telegraph pole. Mr. Allsopp was dead when picked up, and Mrs. Allsopp was found to have sustained fractures of both legs and internal injuries. The young ladies escaped with slight bruises.

Big Water Gates Finished.

The work of constructing the great water gates in the Shenandoah river at Millville, Jefferson county, W. Va., for the power plant of the Winchester and Washington City Railway Company was completed Thursday, and the water diverted from the river into the large raceway at the rate of ten feet a second. Work on the rest of the electric power station is being rushed, and when completed it will have 3,000-horse power capacity, which will be used for illuminating and power purposes in Winchester, Berryville, Charlestown and other places in the vicinity, as well as for the trolley line from Winchester to Washington and on to Baltimore.

Rescued by Steamer.

The steamer Washington, which left here Thursday evening, for Norfolk, rescued Edward Burke, 20 years old, and Garfield Adams, colored, 14 years old, in the mouth of the potomac shortly after one o'clock yesterday morning. Burke had stood seven hours in a submerged boat holding Adams, who was unconscious, in his arms. Burke and Adams live in St. Mary's county, Md. Second Mate Douglass Ross of the Washington heard cries of distress in the darkness. The searchlight was brought into use and Burch was seen standing in the submerged boat up to his neck in water, holding the apparently lifeless body of the colored boy in his arms. The two were placed on board the Washington. Half an hour more and both would have perished. As it was, the boy was almost gone and it was by the most heroic means that he was resuscitated. Mayor Riddick, of Norfolk, who is a physician, was aboard, and was quickly out of his berth rendering professional attention. Burch, too weak to undress himself, was put to bed by the crew, while the boy was being brought to consciousness. Burch and Adams left the former's place in St. Mary's Thursday morning at 9 o'clock to cross the Potomac to Yeocomico, in Westmoreland county, to buy gasoline. They started back across the river at 4:30, and their boat was capsized in a sudden squall and electrical storm which passed over the section at 5:30 o'clock. Burch and the boy clung to the boat until another squall struck her, and her masts and anchor fell out, causing her to right herself. They got in the boat again, and repeatedly in the succeeding squalls she turned over and over. It was a desperate struggle for life, but Burch displayed almost superhuman courage. Yesterday morning as the steamer neared Norfolk Mayor Riddick raised $14 among the passengers and presented this to Burch and the boy, who were cared for aboard the steamer. The Washington reached this port this morning with Burch and Adams aboard. They were taken to Washington and will be sent to their homes tomorrow.

Death of Dr. Purvis.

Dr. William Reginald Purvis died at the Alexandria Hospital at 10:50 o'clock last night. The deceased had for some time been a sufferer from bronchial trouble and a few weeks ago went to the Hospital for treatment, but his condition grew gradually worse till the end came. He leaves a widow, mother and sister. Dr. Purvis was born September 30, 1860, at Spring Hill, near Mobile, Ala., and was a son of William Purvis, esq., of Scotland. He was educated at Roanoke college, and graduated in medicine at the Jefferson Medical College, Philadelphia. He was married in June, 1892, to Eloise B. Ashby, daughter of the late F. Westwood Ashby, of this city. When a mere lad he came to Alexandria with his mother and was popular with all he met. His advance in his profession was rapid and he soon reached the front rank of the medical profession. For a number of years he was the Health Officer of this city and at the time of his death was City Coroner and one of the city physicians. Dr. Purvis was also a Past Master of Alexandria-Washington Lodge of Masons and a member of Mount Vernon Chapter, R. A. M. Dr. Purvis enjoyed an extensive acquaintance and his courteous manner and friendly disposition added to the number of his friends daily. When it was known that his condition was serious there were many expressions of regret, especially from those who had availed themselves of his services as a physician, all of whom justly esteemed him.

There will be a meeting of the Alexandria Medical Society at Dr. McGuire's office at 8.30 o'clock tonight to take action in reference to the death of Dr. Purvis, whose funeral will take place on Monday next at 5 p. m.

Cargo of Phosphate.

Drawing for Automobile.

E. H. Hobson, post machinist at Fort Washington, Md., held ticket No. 12,153, which drew the touring runabout, the principal prize offered at the Elks' flower carnival in this city. The drawing took place in the Alexandria Light Infantry armory last night in the presence of a large number of people. Former Mayor Simpson and Commissioner of Revenue Charles Callahan, conducted the drawing. Several minor articles were disposed of last night. Conductor Nagel, of the Southern Railway, won a suit of clothes donated by L. Downey, of Washington; F. M. Hamilton got a handsome oval mirror, and others received groceries and liquors.

Other awards were made as follows: Mr. Thos. Caton, the auto excursion ride; Mr. John Reed, the prize (life membership in the Order of Elks) for selling the largest number of tickets for the automobile. The handsome loving cup was awarded to Judge L. C. Barley.

The Late Powell Snowden.

The following tribute to the late Powell Snowden, of this office, is from the Alexandria Sunday Times:

The death of Mr. Powell Snowden will be deeply regretted by his many friends in this city and they are counted by the hundreds, for who is it in this old burg that did not know this genial gentleman, for lo these many years. From early childhood he had been connected with his family's paper, the old Gazette, and in the capacity of collector had become one of the most familiarly known men in the city, and, with all, one of the most popular, for while filling a delicate and hard to fill position, and filling it with great credit and efficiency, he has had the tact and genuine gentility to fill it so as to make friends, something hard to do and rarely done in such a position. It is with deep regret that we record his death at the home of his sister, Mrs. Wallis, at the Seminary.

Big Show Coming.

Frank E. Griswold's Railroad Pavilion Ten Nights in a Barroom Company will appear Monday night on the old fair grounds, under a large water proof tent fitted up in theater style. This company carries thirty people; a carload of scenery with calcium effects; a fine band of music and a superb orchestra and megaphone quartette. The play "Ten Nights in a Barroom" has always been a favorite temperance play in Alexandria, having been presented here by both star and amateur talent, and a large crowd will doubtless witness its production by this excellent company. A concert will be given by Prof. Holly Rossmyn's Military Band at noon on Monday and at 7:15 p. m. The child actress Marguerite will play the part of Mary Morgan, supported by a competent cast of characters.

City Licenses.

Mayor Paff today settled with the auditor the license account for the fiscal year. The mayor, assisted by Officer Young, collected $13,339.13. The following shows the practical increase in the amount collected in licenses during the past few years: 1901, $10,210 19; 1902, $12,476.70; 1903, $12,846.15; 1904, $12,209 09; 1905, $13,051.07. During the past two years certain occupations, not heretofore taxed, now require a license, which accounts, in a measure, for the increase.

Injured by Torpedo.

The explosion of a railroad torpedo seriously injured three children named Davis, living at Del Ray, in the county, yesterday evening. The children, two girls and a boy, were playing with the torpedo when it exploded. One of the girls was cut on the arm and the eyelid, and the other on the knee by pieces of the torpedo, and the boy was cut on the left shoulder Dr. Delauey, of this city, rendered surgical aid to the children.

YES,

We Probably Have It.

A good many people make the mistake of going to Washington to get something they could buy at home, do not look for it here, just jump to the conclusion that such things are not to be had in Alexandria.

We would like to state to those contemplating purchasing a fine watch, or diamond, or other fine piece of jewelry, clock, silverware, cut glass, etc., that we have a large and complete stock of the above mentioned goods and which we offer at a lower price than is asked for the same goods in Washington.

SATURDAY EVENING, JUNE 2, 1906.

Silenced Him.

A Kansas City woman tells this story on her husband to demonstrate the inferiority of the masculine mind. One morning as her husband was sitting down to the breakfast table he glanced at the dining room clock and said, "We must be later than usual this morning." "Don't place too much confidence in that clock. It stopped at 5 o'clock this morning, and I just set it going by guess." replied the good wife.
"Were you up at 5 o'clock?" asked the husband.
"Of course not."
"What time did you say the clock stopped?"
"At 5."
"If you weren't up at 5," replied the man, with a puzzled look, "how in thunder do you know when the clock stopped?"
"Why, dear, it stayed stopped," was the reply. The man did not say another word that morning.—Kansas City Times.

Dangers of Cocaine.

Cocaine, an alkaloid of cocoa leaves, was discovered in 1850, but remained in comparative obscurity until 1884. In minute doses, whether taken internally or used as a spray on mucous surfaces, its effect is wonderfully exhilarating, producing for a time the fresh and buoyant sensations of youth and perfect health, that have apparently no unpleasant reaction, and therein lies the explanation of the subtle and irresistible power it quickly acquires over its victims, carrying them to the very brink of destruction before they have dreamed of danger. Being a cumulative poison, the first warning symptom does not appear until the fatal chains are riveted that shall drag them, horror stricken and powerless of resistance, over the precipice to complete mental, moral and physical ruin.

Foreign Flags in America.

The first flag to float over American soil was the royal standard of Isabella, emblazoned with the arms of Castile and Leon. A white flag with a green cross was its companion. Some years after Columbus landed at San Salvator the Cabots planted the banner of England and of St. Mark of Venice on the eastern shore of North America. In the centuries that have intervened since a variety of national flags have waved where now only the stars and stripes is the accepted emblem. Over Texas have floated the French, Spanish, English, American and Confederate; in Louisiana the lilies of France, the Spanish flag, the tricolor, the American and Confederate flags; in California the Spanish, Mexican, Russian and American.

Long Tennessee Fight.

For twenty years W. L. Rawls, of Bells, Tenn., fought nasal catarrh. He writes: "The swelling and soreness inside my nose was fearful, till I began applying Bucklen's Arnica Salve to the sore surface; this caused the soreness and swelling to disappear, never to return." Best salve in existence. 25c at E. J. S. Leadbeater & Sons', Druggists.
